SENT TO GRAND JURY.

Adolphus Robinson, colored, confessed Saturday night to stealing \$201 from the saloon of Captain George W. Petty. He had virtually confessed early in the afternoon. Robinson spent Sunday praying.

About a month ago Robinson was sent to the bank by Capt. Petty to get a check for \$15 cashed. He returned to the captain's establishment empty-handed and asserted that a colored man named Henry Johnson had snatched the money from him. Johnson was arrested, convicted and sent to the penitentiary for a term of one year. Robinson was given a hearing in the Police Court this afternoon and held for the action of the grand jury.

The new boat will be a handsome steamer, 305 feet over all, 286 feet perpendicular and 12 feet draught. After the launch a luncheon was served in the mold loft.

THE V. M. I. CORPS FURLOUGHED.

Owing to the prevalence of pink-eye and the appearance of typhoid fever at the Virginia Military Institute at Lexington, the cadet corps of that institution has been furloughed from 1 o'clock today till the fourth day of January, 1911. It is thought that the conditions above referred to grow out of the scarcity of water resulting from the continued drought in the valley of Virginia.

Conditions in Mexico.

Laredo, Tex., Nov. 21.—Startling reports of an invasion of Mexico from America by fugitive Mexicans were received here today from the Rio Grande region west to El Paso, Tex., following the disappearance from San Antonio Saturday of Francisco I. Madero, recognized revolutionary leader. Armed Mexicans are reported crossing the river boundary at points 300 miles from El Paso where the Mexican side is said to be unprotected by troops or rurales. It is declared by border scouts arriving here this morning that the invading forces are mobilizing on the other side determined to march upon Chihuahua in their first open attack against the Diaz government.

It is estimated that 2,000 Mexicans have already crossed the river border, confirming rumors that the revolution is spreading. The revolutionaries are carrying out well defined plans under a skillful leader. The anti-American outbreaks in Mexico City, and later the revolutionary disturbances at Pueblo now are regarded as forerunners of a menacing revolution which shall show its greatest force along the Texas border through the north of Mexico, and far from the Mexican capital.

Anti-Social and Market for it. You know that, don't you? Why, of course you do.

Turkeys Advance in Price.

New York, Nov. 21.—Because of a heavy demand the price of turkeys here advanced from 25 to 30 cents a pound today in the retail markets. Producers of said birds said that by Wednesday the price will be 32 cents a pound. The reason for the increase is said to be the small quantity in the market. Western shippers are holding back their stock for high prices and the demand is very heavy.

Mrs. Schenk Arraigned.

Wheeling, W. Va., Nov. 21.—Mrs. Laura Farnsworth Schenk, under indictment for alleged attempts to poison her husband, John O. Schenk, was arraigned in court today to plead to the indictments. Her attorneys objected to entering a plea, however, until they could argue the deposition which they introduced to the five counts in the indictment, and Mrs. Schenk was sent back to jail until Wednesday. It is expected that the denunciations will be overruled and a formal plea of not guilty will be interposed. Prosecuting Attorney Bernard Handlan said today that he will ask the court to fix December 19 for the trial.

Murdered by Robbers.

Philadelphia, Nov. 21.—Robbers who early today forced an entrance into the office of the West Laurel Hill Cemetery Company, opposite the Pancody Iron Works, murdered the watchman, Peter Champion, aged 67 years, dynamited the safe and to conceal the crime fired the building. The torso of the watchman was found several hours after the first blast had been extinguished buried in the debris. His legs and arms had been consumed by the flames. The safety which the safe contained remained intact, the burglars failing to effect entrance into the inner compartments.

Killed Family Fired Home.

Barnard, Mo., Nov. 21.—Blood hounds are on the trail here today of a murderer who wiped out the family of Ora Hubbell, killing the man, a prosperous farmer, his wife and their two children, Jessie, aged 6, and Walton, aged 4 years old. The slayer burned the Hubbell home in an effort to conceal the crime.

The farmhouse was saved from total destruction only after a hard fight and then the tragedy was revealed.

The body of Hubbell was found in the kitchen, that of his wife in the dining room near the telephone. She had evidently been killing while trying to summon aid. The bodies of the two children were in bed in another room. The officers assert that they have a clue to the slayer in the person of a man with whom Hubbell is known to have quarreled, and an arrest is expected hourly.

Statistics just issued in Paris, show that the French government is perhaps the largest watch dealer in the world. More than 550,000 watches per year are "put in stock" at the Mont de Pieté, the government pawn shop in Paris. The French call the place "My Aunt," though Americans call it their enemy.

The statistics do not show how many of the watches are redeemed.
